Dear Mr. Alter:

On May 15, 1989 the Illinois Environmental Protection Agency received a copy of a Preliminary and Projected HRS scoring package for the Pullman Sewage Farm ILD981959208 located in Cook County. As I pointed out in the Pre-remedial workshop of May 25th, this document contained several errors which resulted in an inaccurate HRS score, and concluded that this site should be designated "No Further Action".

After discussing this site with Mary Lou Martin and Jerry Oskvarek of Ecology and Environment, they agree to develop a new scoring package with the updated information, and recommend the site for screening site inspection activity.

The purpose of this letter is to inform you that Illinois' Pre-remedial program wishes to conduct this inspection, and would like to schedule it for the first half for FY90.

Should you have any questions or comments concerning this request, please feel free to contact me at the above referenced telephone number.

Sincerely,

Thomas Crause
Pre-Remedial Program Manager
State Site Management Unit
Remedial Project Management Section
Division of Land Pollution Control
